What investment services and advice can you provide me?

Investment Management Services: For individuals and families, when you engage us in investment management services, we monitor your investments on an ongoing basis and offer continuous advice regarding the investment of your funds based on your investment goals. We generally provide advice on no-load mutual funds, ETFs, individual fixed income securities, individual equity securities, no-load variable annuities and variable life insurance contracts. Your custodian may limit the types of investments available to you, although this is unlikely.

When managing your portfolio, you’ll grant us discretion to buy and sell investments in your account without asking for your approval of the transaction in advance. You may limit our discretion, such as imposing reasonable restrictions on investing in certain securities or industry sectors.

In addition, we offer financial planning services including cash flow planning, retirement planning, asset allocation, insurance review, tax and estate planning.

More detailed information about our services is available in our Form ADV Part2A, specifically under “Advisory Business”. Please visit <https://adviserinfo.sec.gov/firm/brochure/174136> for a link to this document.

What fees will I pay?

▶ For investment management services, we typically require a minimum account size or combined household assets of \$1,000,000 for retirees. We charge our fee at the beginning of each quarter. The fee is calculated by using your account value at the end of the previous quarter, adjusted for deposits and withdrawals, and is deducted directly from your account. ▶ **First Year Planning Fees:** We charge a fixed flat fee typically ranging from \$2,500-\$6,000 for financial planning services depending on the complexity of your circumstances. If we also manage your investments, the financial planning fee will be discounted after the first year of service or could be waived entirely depending on the management fees you paid in the past 12 months.

Other Fees and Costs

Depending on the type of account and/or type of investment purchased, you may pay a transaction fee to the custodian when we buy and sell an institutional class mutual fund for you. Charles Schwab no longer charges commissions on individual stocks and ETFs. In addition to the quarterly fee, you may also incur charges for management and operating expenses of mutual funds and ETFs, wire transfer fees, and interest charges on margin loans or securities backed lines of credit. We do not receive any portion of these fees.

<p>Additional Information</p> <p>You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time.
